

AR100 SOAP DISPENSER FOR FLAT-TOP GALLON BOTTLE

HEAVY-DUTY AND DURABLE

Ruggedly built and very durable, the **AR100** is specially designed to withstand the heavy demands made by both the end-user and by abrasive hand cleaners and solvents.

The wall-mount design makes it easily accessible, and the heavy-duty lever allows for hand or elbow operation.

The **AR100** dispenses products with grit and abrasives such as pumice, plastic beads, and walnut shells. It also dispenses D-Limoene products.

TECHNICAL INFO

MATERIALS

The **AR100** is made of plastic, an aluminum shroud and lever, and stainless steel tubing to provide long-lasting performance and durability.

DOSAGE

The **AR100** doses 5.5ml at a time, adjustable to a dose of 2ml.
