Most Important Symptoms & Effects, Both Acute & Delayed, Caused by Exposure	
See Section 11 for more detailed information on health effects and symptoms.	
Advice to Doctor	Treat symptomatically.

5. FIRE FIGHTING MEASURES

General Measures	Do not enter enclosed or a confined work space without proper protective equipment. Fire fighting personnel should wear respiratory protection (positive pressure if available). Clear fire area of all non-emergency personnel. Stay upwind. Keep out of low areas. Eliminate ignition sources. Move fire exposed containers from fire area if it can be done without risk.
Suitable Extinguishing Media	Dry chemical or water spray.
Protective Equipment for Fire Fighters	Fire Fighters should wear Self Contained Breathing Apparatus and full protective clothing appropriate to the principal fire hazard or the source of the fire.
Flammability	May be combustible at very high temperatures.

6. ACCIDENTAL RELEASE MEASURES:

General Response Procedures	Avoid accidents, clean up immediately. Avoid contact with eyes and skin.
Spillages	It is recommended that personnel involved in cleaning up any spills should wear protective equipment to prevent skin and eye contamination and inhalation of airborne dust. Vacuum if possible to avoid airborne dust. Graphite is slippery to walk on so wash with water and collect. Large spills – scoop up with shovels and clean up with water.
Disposal	Dispose of in accordance to Federal, EPA, State and Local Regulations. Disposal into sewer system is not permitted.

7. HANDLING AND STORAGE

Safe Handling	Keep out of reach of children. Adverse health effects would not be expected under recommended conditions of use so long as prescribed safety precautions are practiced. Ensure eye bath is available. Observe good personal hygiene. Wash hands thoroughly after use and before eating. Keep containers tightly closed when not in use.
