Technical Data Sheet

Magic SS-4A Aerosol Silicone Waterproofing Spray

Description

Magic SS-4A is a silicone lubricant for use in industries such as steel and mining, marine, power stations, paper and printing, textile electrical automotive, moulding and other associated industries.

Application

Magic SS-4A covers a wide range of uses with typical applications for lubricating critical machinery associated with the preparation and packaging in the food industry.

The product is used for a wide diversity of lubricating and protecting of textile, garment, shoe and furniture, industrial equipment, automotive moulding, locks, window channels and scat adjustment mechanisms.

Magic SS-4A lubricates stainless steel running rails in common use as well as guillotines associated with the printing industry.

Features

- Odourless, colourless non-staining, waxless and inert. With unusually low surface tension properties it possesses versatile waterproofing characteristics.
- Contains non-toxic silicone oil, and includes no Trichloroethane solvent.
- Stable over a wide range of temperatures -86°C to +250°C and highly resistant to oxidation.
- Provides excellent di-electric properties over a wide range of temperatures and frequencies.
- A highly volatile non-flammable silicone fluid.
- Waterproofs electrical gear and radio equipment.
- Anti-adhesive release for backings of urethane, rubber and other non sliding materials to plastics, metal and wood.
- Preserves and beautifies rubber.

Use Instructions

Magic SS-4A can be applied liberally onto parts direct from the aerosol can.

Properties

Appearance : Clear colourless liquid

Flashpoint : Non-flammable

SG : 1.3

Shelf Life

5 years from Date of Manufacture.

Safety Directions

For cautionary and first aid information, consult the Material Safety Data Sheet (MSDS) or product label.
