Technical Data Sheet

Sure-gal Aerosol Cold Galvanising Spray

Description

Sure-gal Cold Galvanizing Spray forms a flexible, tough coating of 95% pure zinc which electrochemically bonds with base metals. It protects base metals from rust and corrosion through galvanic action.

Application

Sure-gal Cold Galvanising Spray is ideal for use on: Structural Steel and Wrought Iron, Boat Trailers, Radio and TV Relay Towers and Antennas, Steel Fencing, Street Lighting Poles, Tanks, Refrigeration Equipment, Touch-up in Welding and for Hot Tank Galvanisers.

Features

- Easy to apply.
- Protects metal surfaces.
- Prevents corrosion.
- Non-staining.
- 95% Pure Zinc coating.

Use Instructions

1. Apply only to clean base metal.
2. Remove all oil and grease.
3. Remove rust and scale.
4. Shake can until agitator is free, then continue to shake for approximately 2 minutes.

5. Best results are obtained when sprayed at above 15°C.
6. Spray with light, even strokes.
7. After application clean valve by turning can upside-down and pressing button until residue product is cleared from nozzle.

Properties

Appearance	:	Grey liquid
Flashpoint	:	23°C (Open Cup)
SG	:	0.98 (Water = 1)
Solubility In Water	:	Insoluble in cold water, hot water
Propellant	:	Hydrocarbon

Safety Directions

Aerosol Cans

Do not puncture or incinerate can even when empty. Exposure to high temperatures may cause can to burst. Do not place in direct sunlight or near any heat source.

General

Use only in well ventilated areas. Avoid continuous breathing of vapour and spray mist. Avoid contact with skin and eyes.

For cautionary and first aid information, consult the Material Safety Data Sheet (MSDS).
